n. Mr. [redacted] reported that ADSO had requested him to explore further the matter of unvouchered funds personnel participating in the Credit Union. After duly considering all angles of this problem, the Committee felt that the various security factors involved more than outweighed any benefits which might accrue to these individuals by reason of their participation, and therefore such participation should be discouraged. The Committee was still of the opinion that individuals on unvouchered funds should not belong to the Credit Union, and anyone transferring from vouchered to unvouchered funds should sever his connections therewith.
